There can be no assurance that, particularly in an adverse climate, we would account for one third of the daily trading volume. Analysis presumes 5 trading days out of 7 calendar days. When gross long positions are less than 100% of partners’ capital, cash is included in 0-30 days and defined as fund AUM less the market value of long positions. The analysis reflects the time it would take to sell portions of the overall portfolio based on the incremental liquidity of underlying securities.
